ATTITUDE

A settled way of thinking or feeling about someone or something, typically one that is reflected in a person's behavior.

INTRO

Your attitude is often shaped by the experiences you have throughout life and how those experiences are addressed, and the results that follow. This is why shaping the right attitude during one's adolescent age is easier and most important.

If a person's attitude is negative, it is because they have experienced negativity and that is what they focus on. The person who has a positive attitude has also experienced negativity; however, they focus on the positive, in time they expect and see more positive results.

Changing our attitude is harder as we get older because we have exercised our views through positive or negative thinking for so long that we see the world through that lens. However, with effort, one's attitude can improve over time when they are open minded about seeing life through a positive lens, and start to experience the results from it.

In conclusion:

A Negative Attitude thinking person tends to focus on the bad things that happen to them. A Positive Attitude thinking person tends to focus on the good things that happen to them, and around them.

INSIGHT

Your Attitude influences how you perceive the world when it comes to making decisions about the past, present, or future, and this influences how we interact with others. Our belief about things creates our attitude, and our attitude is a shaper of our personality. Our personality frames how people see us, and ultimately how we are viewed as a person. Your Attitude should not be taken lightly.

Why are these Quotes On ATTITUDE so important?

These quotes give you easy to remember sound-bites of positive thinking on a daily harmonious flow of content that is custom-arranged to encourage you, motivate you, and empower you with optimistic thinking to boost your mood with focus, everyday.

A better attitude can help everyone foster better relationships with others, reducing stress, improving your resilience in the face of challenges, and potentially even improving your physical health by lowering the risk of certain illnesses that are linked to negative thinking that can cause worry.

Important:

Find a quiet spot to focus on an ATTITUDE quote per day, or read the same quote every day for a week. Meditate on it, make notes about it, draw your creative vision regarding it, include a to-do list because of it, and set a challenge date for it. We have provided space inside this book for all of it.

Your Positive Attitude! - Enjoy and share it.
